MESSAGE FROM THE PRESIDENT

Fellow Liberians,

As we end the first 100 days of my administration, I am pleased to submit the Assessment Report on our 100-Day Action Plan. The plan was devised to make quick interventions to provide some measure of relief to Liberians weighted down by so much hardship in the last few years. By concentrating on key sectors including infrastructure and basic services, security and rule of law, transparency and accountability, and social development services, the plan endeavored to address some of the governance, social, and economic problems my administration inherited.

One of the main objectives of our Action Plan was to ensure all primary roads in Liberia are pliable during all weather, making sure that transportation and access to vital services are not hindered by poor road conditions. I am pleased that, during our first 100 days in office, we were able and continue to make significant strides in ensuring that most of the critical spots along the major road corridors have been stabilized to facilitate ease of transportation. In the fight against drugs and substance abuse, for example, robust awareness programs and enforcement efforts, such as apprehending and bringing to justice over 200 suspected drug dealers, are enhancing the fight against the national drug epidemic. I am pleased with the progress we have made so far despite funding challenges.

Finally, I would like to reiterate my government's commitment to efficient service delivery to the people of Liberia to improve livelihoods. We will work to continue these interventions and many more throughout the life of our regime, especially as we formulate a new 5-year development plan to transform the country.

I am confident that with your continued support, we will build a brighter future for all Liberians.

Let's continue to Think Liberia, Love Liberia, and together build Liberia.

Joseph Nyuma Boakia, Sr.

President, Republic of Liberia

ACKNOWLEDGEMENT

Developing and implementing a 100-Day Action Plan amid the multi-sectoral challenges we inherited is a daunting task. It could only be possible with a steady and credible leadership of the kind that H.E. President Joseph Nyuma Boakai, Sr. has demonstrated over the last 100 days. His unwavering commitment to driving positive change in our country has been truly inspiring and impressive.

We extend heartfelt appreciation to all stakeholders who have played a significant role in the implementation of the 100-Day Action Plan. Your dedication, hard work, and collaboration have been crucial in working towards the goals set forth in the plan, including the improvement of primary roads, the fights against corruption and drug abuse, and the empowerment of 10,000 youths through ICT training. Additionally, I look forward to your continuous support as we jointly develop Liberia's New National Development Plan and its accompanying 15 County Development Agendas (CDAs).

Special thanks to the Department of Budget and Development Planning at the Ministry of Finance and Development Planning (MFDP) for coordinating on the reporting of interventions in the 100-Day Action Plan. Specifically, we acknowledge the role played by all policy makers and technicians of MFDP, Cabinet Secretariat at the Ministry of States for Presidential Affairs, and Development Partners that provided financial and technical assistance.

Boima S. Kamara

Minister of Finance and Development Planning

EXECUTIVE SUMMARY

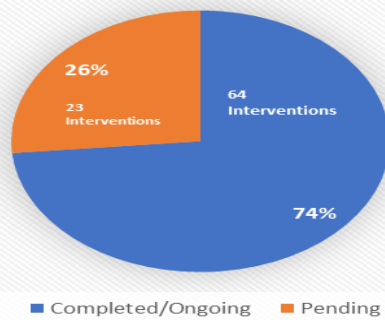

This 100-Day Action Plan assessment report examines the Government's progress consistent with her short-term policy priorities. The plan was developed to address critical needs of the Liberian people while laying the foundation for the development of a medium-term plan.

The Government of Liberia has, within a short period, improved transparency and accountability in the governance space by enforcing the rule of law, strengthening financial oversight, and promoting ethical practices across all sectors to combat corruption effectively. The improvement of infrastructure with special emphasis on making primary roads pliable during all seasons, and upgrading ICT and meteorological equipment at Liberia's premier airport, Roberts International Airport (RIA), are a few outstanding accomplishments. Furthermore, the fight against drugs and the provision of educational opportunities to youth is a notable progress.

The Government appropriated US\$23,488,543 for the successful implementation of the plan. The recalling and resubmission of the FY2024 National Budget delayed the implementation of key 100-Day deliverables.

The total number of interventions in the 100-Day Action Plan is 87. There are 20 funded interventions constituting 23 percent of the total while the remaining 67 interventions are routine, representing 77 percent. The status of the interventions is either completed, ongoing or pending. The ongoing and completed constitute the progress made so far. The report combines the completed and ongoing interventions because some interventions such as road maintenance, and drainage and sewage cleaning are ongoing. Therefore, the combined number of completed and ongoing interventions is 64 which constitutes 74 percent of the total interventions; while the remaining 20 interventions representing 26 percent are pending. The pending routine interventions were delayed owing to the fact that the government was still being constituted, delays due to the recalling of the budget, and funding constraints. These are being prioritized for completion. Below is a graphical illustration of progress made.

Progress on 100-Day Interventions

Highlights of Sectoral Achievements (ARREST):

- **Agriculture:** The Agriculture census and data collection have been completed; the National Agriculture Development Plan drafted and is awaiting validation, and Liberia's Food Security Strategy is at 95% completion.
- **Road (Infrastructure):** Critical spots across the country are currently being aggressively worked on in anticipation of the rainy season (clearing, grading, shaping, and stabilizing of critical spots are ongoing). Critical spots across the country are being maintained and made pliable.
- **Rule of Law:** The fight against drugs and substance abuse is on course with massive awareness and enforcement efforts thereby apprehending and bringing to justice over 200 suspected drug dealers.
- **Education:** The GoL has commenced the payment of arrears for WASSCE fees as well as local and international scholarship students. Youth Capacity Building in Information & Communication Technology (ICT) is well on course.
- **Sanitation (Energy and Environment):** The cleaning of sewage lines has commenced across central Monrovia.

Additionally:

- Water reservoirs in Monrovia and Paynesville have been repaired at 95%;
- The Caldwell water facility has significantly been repaired.
- The Liberia Electricity Corporation negotiated an increase of power capacity supply from Cote D'Ivoire Energies from 25 MW to 50 MW.
- The LEC launched a project for the electrification of the area covering St. Paul Bridge to Po-River and gaps areas along the Kakata corridor including Johnsonville and Careysburg.
- Marshall, RIA electrified and Edward Beyan Kesselly (EBK) Barrack has been connected to the National Electricity grid.

Other Sectoral Highlights:

- **Public Administration:** The FY 2024 draft National Budget has been resubmitted to the National Legislature and has met the concurrence of both houses.

Additionally:

- Payroll and personnel audits across the Government are ongoing;
- Digitizing revenue transaction system across the Government has been initiated;
- The National Consultancy Policy of Liberia has been launched;

- Liberia Integrated Tax Administration System (LITAS) has been integrated with 3 banks (Ecobank, GT Bank and International Bank Liberia Limited);
- All diplomatic Passports were recalled and reissued where applicable.

- **Health:** The Government of Liberia has made the following accomplishments in the health sector:
 - Transitioned 123 beneficiaries of the At-Risk Youth program from rehabilitation to recovery and reintegration; following the President's declaration of substance abuse as a national emergency
 - Secured 15 domestic scholarships annually through the Ministry of Education for Mental Health Clinicians to pursue master's degree in Advanced Practice Clinical Psychiatric Mental Health;
 - Last mile distribution of drugs and medical consumables to Montserrado and Margibi Counties has been completed
 - Sites have been identified for the construction of four regional diagnostic centers;
 - Consignment of rapid diagnostic test kits distributed to 70% of clinics and communities around the country.

SECTION ONE: INTRODUCTION

On January 22, 2024, the Unity Party Alliance (UPA) led Government was inaugurated with H.E. Joseph Boakai as President of the Republic of Liberia. In his inaugural and State of the Nation addresses, the President committed to carrying out a number of interventions in critical priority sectors within his first 100 days in office to create immediate relief as well as to restore citizens' confidence in the Government. Despite resource constraints due to the delay in the passage of the resubmitted FY2024 National Budget as well as delays in the confirmation of some key appointed officials, the Government was determined to develop and mobilize support for its 100-Day Action Plan.

The strategic design of the 100-Day Action Plan was based on a deep understanding of the current governance and microeconomic situation and the challenges that needed immediate action. Rooted in the vision of the Unity Party Alliance (UPA) campaign manifesto and its Agriculture, Roads, Rule of Law, Education, Sanitation and Health, Tourism (ARREST) framework, the 100-Day Action Plan has been outlined and prioritized based on findings not only from Joint Presidential Transition Teams' engagements across all sectors of government but also diverse technical engagements and coordination meetings held with all MACs and Development Partners. It is a product of a multi-agent engagement process. The plan is being coordinated through a structured coordination mechanism that is headed by the National Steering Committee chaired by the President.

The FY2024 budget was recalled, revised and resubmitted to reflect the new Government's priorities. Due to resource constraints, the GoL appropriated **US\$23,488,543** for the implementation of its 100-Day Action Plan. The funded interventions ranged from accelerating the fight against corruption, making primary roads pliable in all seasons, fight against drugs and substance abuse to the commencement of training 10,000 youths in ICT across the country.

This report considers progress made toward the implementation of the funded and routine activities. Depending on the nature of the intervention, some interventions have been completed, some have commenced, while others are yet to begin.

I.1 GOAL AND STRATEGIC OBJECTIVES

The goal of the 100-Day Action Plan is to create immediate relief for the population of Liberia by making interventions in critical priority sectors. Against this backdrop, four mutually reinforcing strategic objectives were developed. They include:

Strategic Objective 1:

- *Enhance transparency and accountability in governance by implementing robust anti-corruption measures, enforcing the rule of law, strengthening financial oversight, and promoting ethical practices across all sectors to combat corruption effectively.*

Strategic Objective 2:

- *Improve infrastructure development and accessibility by prioritizing the maintenance of primary road corridors, enhancing sanitation services, upgrading ICT and meteorological equipment.*

Strategic Objective 3:

- *Increase educational opportunities and combat drug and substance abuse by implementing immediate interventions to support quality education and provide support services for at-risk individuals.*

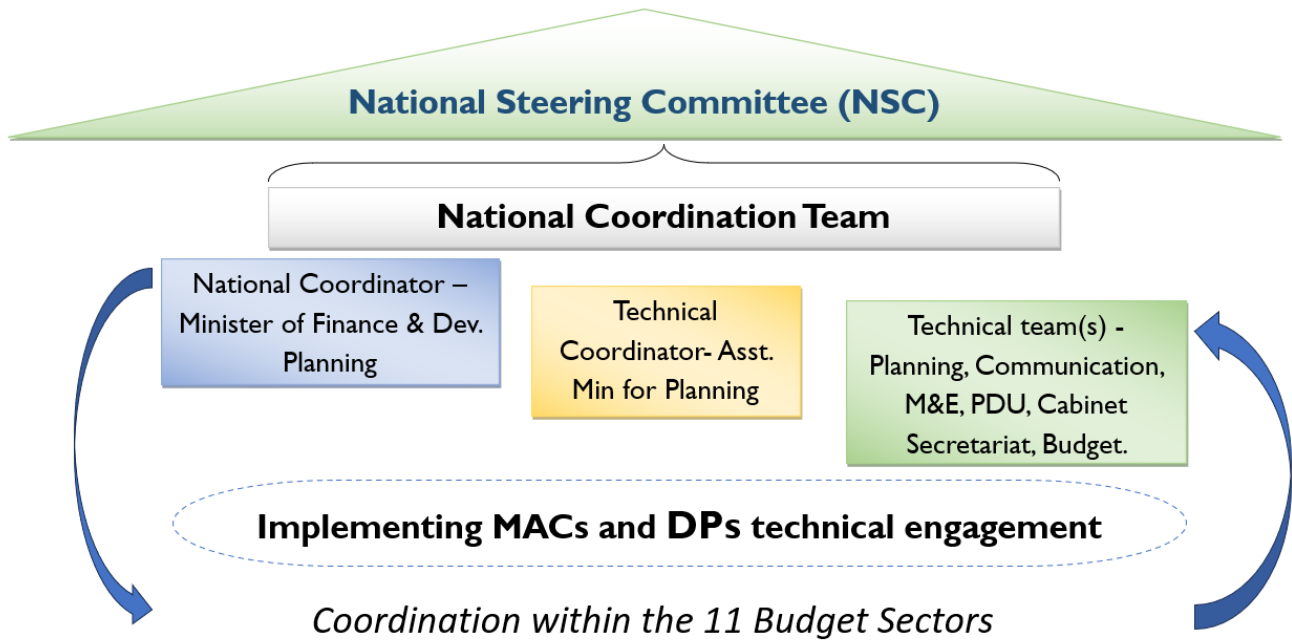

Strategic Objective 4:

- *Support economic development through policy reforms and capacity building in agriculture, tourism, and commerce.*

I.2 IMPLEMENTATION, COORDINATION AND REPORTING STRATEGY

The plan is being coordinated through a structured coordination mechanism that is headed by the National Steering Committee chaired by the President and coordinated by the Director of Cabinet. Monitoring and reporting are jointly being led by the Ministry of Finance and Development Planning (MFDP) and the President's Office.

The coordination mechanism for the 100-Day Action Plan is a multi-stakeholder arrangement that brings together policymakers, technicians and relevant development partners to accelerate the effective implementation of the President's earmarked interventions. The schema below depicts the structure:

SECTION TWO: SUMMARY OF ACHIEVEMENTS PER SECTOR

2.1 AGRICULTURE

The Government of Liberia committed to:

- Carry out the Agricultural census; Develop the National Agriculture Development Plan;
- Initiate discussion on the establishment of an Agriculture and Industrial Development Bank (AIDB);
- Complete, validate and adopt Liberia food security strategy.

The Government of Liberia has achieved the following:

- Conducted National Agricultural Census Exercise, completed data collection with the data analysis ongoing;
- Drafted the National Agriculture Development Plan and awaiting validation;
- Secured budgetary Seed Money as Counterpart funding for the creation of Agriculture and Enterprise Development Bank;
- Food Security Strategy is at 95% completion rate;
- Launched and began cultivation on the University of Liberia Farm for the sole purpose of feeding students, generating income and for practical training and research;
- Additionally, the MoA is cultivating 1000 hectares of lowland at Fuamah Multipurpose Cooperative in Bong Mines.

2.2 INFRASTRUCTURE & BASIC SERVICES (ROADS)

The Government of Liberia committed to:

- Providing meteorological services data equipment for the Robert International Airport (RIA);
- Constructing the National Digital Cyber Forensic Lab and reactivate e-Liberia;
- Ensuring that all major roads are pliable all seasons
- Purchasing of spare parts for Public Buses;
- Reviewing of contracts signed between 2018 to 2023;
- Ensuring compliance with PPCC and PMF Laws;
- Ensuring Assets verification;
- Establishment of fixed Assets registry for accountability;
- Carrying General Road Users worthiness Motor Vehicle and Driver Licensing, Insurance, Eligibility Certification Enforcement Exercises;

The Government of Liberia has achieved the following in the Infrastructure and Basic Services Sector:

- Initiated the purchase of meteorological services data equipment for the RIA (Contacts with the international manufacturer (VAISALA, from Finland), have been established and the manufacturer has forwarded invoice to LAA);
- The procurement plan for the National Cyber Digital Forensic Laboratory and E-Liberia Portal Project has been approved by PPCC and contract awarded for the construction of the forensic data center;
- The PPCC process is ongoing for the procurement of spare parts for public buses and Presidential Executive Order issued waving duties on fuel and spare parts for NTA;
- The Ministry of Transport (MoT) reviewed contracts signed between 2018 to 2023;
- A fixed asset registry established and is carrying out General Road Users Worthiness Motor Vehicle and Driver Licensing, Insurance, Eligibility Certification Enforcement Exercises across the country;
- Critical Road corridors identified across the country; all contracts awarded; contractors received first set of disbursement;
- Critical spots across the country are currently being aggressively worked on in anticipation of the rainy season;
- Mechanical clearing of vegetation, trees and stumps are ongoing;
- Grading, reshaping to form road camber and compaction are ongoing;
- Installation of cross drain at water crossing; Critical spots across the country are being maintained and are pliable;

SUMMARY OF PROGRESS ON ROAD CORRIDORS		
Total length in KM	Km of Mechanical clearing, grading, and shaping to form road camber completed	Km of critical sports repaired

2.3 RULE OF LAW

The Government of Liberia committed to eradicating the trade and use of illegal substances in Liberia

The Government of Liberia has made progress on the following:

- Disbursed \$200,000 towards the fight against illegal substances;
- Massive community engagements and awareness ongoing at 21 high schools;
- 21 ghettos raided and over 200 suspected drug dealers detained, including notorious individuals, who are being prosecuted.

The Government has identified and is monitoring specific locations in densely populated areas such as Pelham Building, Zimbabwe Ghetto, 12th Street Block, the community behind ERA Supermarket, and King Gray Community.

The Liberia Drug Enforcement Agency has been successful in raiding about 21 ghettos in Montserrado County. Table I shows the ghettos and communities raided by LDEA.

Table 1: Ghettos and communities raided by LDEA

Car Wash Ghetto/ SKD Blvd	Rehab Building/Rehab Community	Zimbabwe/Congo Town Back Road

2.4 EDUCATION SECTOR

The Government of Liberia committed to:

- Pay scholarship arrears for local and foreign students;
- Invest in Youth Capacity Building in ICT for the first six months and
- Complete the construction of 25 schools

The Government of Liberia has allotted US\$ 579,119 for the payment of arrears for both local and international scholarship students. These arrears include underwriting expenditures such as: monthly allowances, resettlement assistance, French language training programs, air ticket cost, and other administrative and operational costs associated with students' wellbeing. These allocations have

prevented the students from being expelled from the schools. The arrears period is from July 2023 to March 2024.

The Scholarship beneficiaries for three foreign nations are 230 students. Table 3 highlights scholarship beneficiaries per country.

Table 3: Scholarship beneficiaries per country

<i>Country</i>	<i>Number of Beneficiaries</i>
<i>China</i>	<i>63 Students</i>
<i>Morocco</i>	<i>152 Students</i>
<i>Hungary</i>	<i>15 Students</i>
	230 Students

The total beneficiary for the local scholarship is 3,350 students from the academic year 2022/2023 to the academic year 2023/24. 283 are at the graduate level, 2,903 are at undergraduate level and 164 at associate degree programs. Additionally, \$3,500,000 has been appropriated in the FY2024 budget for the payment of WASSCE fees.

Meanwhile, the Youth Capacity Building in ICT Project has been launched and the following activities have been initiated or completed:

- Assessment of major facilities to host the training in seven counties completed;
- Online registration portal/platform to vet students has been developed and made accessible;
- The training curriculum has been developed and validated;
- National Steering Committee and Project Management Unit (PMU) has been established;
- Training activities have been approved by the Inter-Ministerial Committee;

The GoL is on the verge of completing 25 schools under the Improving Results in Secondary Schools (IRISE) program. Of the 25 schools, 16 are at 100% civil works completion and only require the installation of solar panels, furnishing, school supplies and materials. Additionally, 90% of the Early Childhood Education (ECE) schools targeted are at 100% civil works completion and waiting to be furnished with solar system, school supplies and materials.

2.5 ENERGY AND ENVIRONMENT SECTOR (SANITATION)

The Government of Liberia committed to:

- **Cleaning of Excess Sewage Spillage in Monrovia;**
- **Restoration of Water Supply to Central Monrovia;**
- **Improving Water Supply in Bushrod Island (Water Pressure and Customer Services);**
- **Restoration of Water to Kakata and Buchanan;**

- Decentralization of EPA activities across the country;
- Compliance review of mining companies;
- Capacity needs assessment across the MME and Baseline review for formalization of artisanal mining

The cleaning of sewage lines has commenced across central Monrovia and the Liberia Water and Sewer Corporation has commissioned four additional sewer tankers to facilitate the cleaning of sewerage across Monrovia and its environs.

Additionally, progress has been made on the following:

- Cleaning of sewage is at 20% and is anticipated to significantly increase;
- The water reservoirs in Monrovia and Paynesville have been repaired at 95% and are anticipated to be tested the first week in May 2024;
- The Caldwell water facility has been significantly repaired;
- The Liberia Electricity Corporation (LEC) negotiated for an increase in power capacity supply from Cote D'Ivoire Energies from 25 MW to 50 MW;
- The LEC has also launched a project for the electrification of the area covering St. Paul Bridge to Po River and gap areas along Kakata corridor including Johnsonville Township and Careysburg District;
- The Marshall Township, Roberts International Airport (RIA) and Edward Beyan Kesselly Barracks have been electrified and connected to the National Electricity Grid.
- National Environmental Policy Council has been established to direct and guide EPA's policies;
- The Ministry of Mines & Energy (MME) has completed the compilation of Mining Licenses into categories;
- The Ministry has also completed capacity needs assessment and has initiated the baseline review for the formalization of artisanal mining.

2.6 HEALTH

The Government of Liberia has committed to:

- Fight Substance Abuse through the declaration of a National Public Health Emergency;
- Substance Abuse Prevention;
- Rehabilitation of people with Substance Use Disorder (SUD);
- Mental health education; Mental health medication;

- Secure the land for the construction of a National Referral Neuropsychiatric Hospital in Liberia;
- Commission MoH personnel management system audit;
- National supply of medicines and medical consumables;
- Monitor stock levels and consumption pattern as well as strengthen inventory management system;
- Establish Regional Diagnostic Centers;
- Supply diagnostic equipment, rapid test kits, reagents and other laboratory supplies for effective diagnosis at all levels of services delivery and improving quality of care at major referral health facilities;

The Government of Liberia has through the Office of the President declared substance abuse as a national emergency.

The following interventions were achieved/ongoing during the period:

- Mental health and substance abuse awareness was conducted in 26 high schools, 4 churches, 2 mosques, and 8 radio stations;
- School health clubs initiated within 20 high schools in Montserrado to encourage peer monitoring in promotion of healthy habits among students;
- Transitioned 123 beneficiaries of the At-Risk Youth program from rehabilitation to recovery and reintegration in collaboration with health;
- Colombo Plan Credentialing Exam held for 68 Addiction Professionals upon completing training;
- Secured 15 domestic scholarships annually through the Ministry of Education for Mental Health Clinicians to pursue Master's degree in Advanced Practice Clinical Psychiatric Mental Health;
- Agreement secured with partners for the purchase of medications used in treating Substance Use Disorder;
- 50-acre of public land identified in Bantol for the construction of a National Referral Neuropsychiatric Hospital;
- Audit of payrolls and personnel ongoing;
- Essential medicines and medical supplies were distributed to 100% of drug depots in 13 counties around the country;
- Last mile distributions to Montserrado and Margibi Counties have been achieved 100%;
- Distributed up to 95% of essential and tracer medicines and medical supplies to last mile public health facilities around the country;
- All public health facilities have tracer medicines and essential medicines; All public health facilities conducted inventory;
- Sites have been identified for the construction of four (4) regional diagnostic centers;
- Consignment of rapid diagnostic test kits distributed to 70% of clinics and communities around the country;
- Consignment of assorted diagnostic equipment and supplies distributed to 85% hospitals and health centers around the country;

- Of the 763 health facilities with Labs, there has been an estimated reduction from 70% to 30% stock-out of Rapid Diagnostic Tests (RDT);
- Of the 763 health facilities with Labs, there has been an estimated reduction from 75% to 30% in stock-out of reagents and others for microscopy and adolescents training provided to 250 people.

2.7 INDUSTRY AND COMMERCE

The Government of Liberia committed to support capacity building, policy reform and enforcement in the Industry and Commerce Sector

The Government of Liberia has initiated efforts to:

- Conduct numerous training programs and workshops designed to enhance the entrepreneurial skills of MSMEs;
- MOCI Collaborating with the Liberia Electricity Corporation (LEC) to construct a substation within the Monrovia Industrial Park (MIP), aiming to provide manufacturers with steady, affordable electricity;
- MoU is being developed with the Liberia Immigration Service (LIS) to partner on establishing a visa on arrival desk at Roberts International Airport (RIA) in support of the ARREST Agenda and the MoC's efforts to facilitate and enable business environment;

2.8 MUNICIPAL

The Government of Liberia committed to:

- **Clean and Beautify the Cities of Monrovia and Paynesville;**
- **Develop the National Roadmap to enroll all residents into the National Biometric Information System (NBIS);**
- **and Strengthened Decentralization to County Service Centers**

The Government of Liberia has achieved the following:

- The National Identification Registry Roadmap has been completed and launched;
- The support toward strengthening decentralization to county service centers has also commenced.
- Streets are being cleaned daily in Monrovia and adjacent Townships & Boroughs;
- The two Transfer Stations - Fiama and Stockton Creek have been cleared 100 %;
- Waste on Center Street cleared and it's being stabilized through daily routine;
- Palm Grove Cemetery Cleaned;
- Backlogs (overstayed wastes) cleared from many community-based hotspots, especially along the main city Streets;
- Fire at Whein Town Landfill extinguished to allow the recommencement of waste disposal there;

- Whein Town Landfill covered with laterite and compacted as per required servicing standards;
- Installation of trash bins along streets in parts of Central Monrovia completed;
- 691 Truckloads of solid wastes were taken from the various streets in Monrovia to the Landfills at Whein Town;
- 717 truckloads of solid wastes from the two transfer stations; Stockton Creek and Fiamah to the landfill at Whein Town;
- 9,789,500 kilograms of solid wastes from the two transfer stations (Stockton Creek and Fiamah);
- 7,757,636 kilograms of solid waste from the various streets in Monrovia to the Whein Town Landfill;

2.9 PUBLIC ADMINISTRATION

The Government of Liberia committed to:

- Resubmit a New Draft National Budget for 2024;
- Initiate the Development of the new National Development Plan;
- Integrated Tax Administration System (LITAS) with 3 banks (Ecobank, GT Bank and International Bank Liberia Limited);
- Integrate LITAS with the Liberia Immigration Service; Integrated LITAS with Ministry of Transport and Additional ministries (MOFA, MOE, MME, LNP, MOL, etc) to be integrated from manual to automation;
- Recall all diplomatic Passports and re-issue where applicable;
- Review and update the Foreign Service Manual;
- Appoint Foreign Service Inspector General and Ambassadors at Foreign Missions and Explore possibilities to issue visa on arrival to facilitate trade and commerce

The following have been initiated and/or completed by the Public Administration sector:

- The FY2024 Draft National Budget has been resubmitted to the National Legislature and has been approved;

- A concept note, roadmap and a detailed budget have been developed for the new national development plan, 15 county development agenda and PSIP Plan. Additionally, funding has been secured for the Development of the New National Development Plan and its associated frameworks.
- Fiscal Rules and Travel ordinances have been completed and operationalized;
- Payroll and personnel audits across government are ongoing;
- Inter-Agency committee setup on unprocessed rubber products;
- Digitizing revenue transaction system across government has been initiated;
- National Consultancy Policy of Liberia launched; Liberia Integrated Tax Administration System (LITAS) integrated with 3 banks (Ecobank, GT Bank and International Bank Liberia Limited; LITAS integrated with the Liberia Immigration Service; LITAS integrated with Ministry of Transport have gone-live since Friday, May 3, 2024 and additional ministries (MOFA, MOE, MME, LNP, MOL, etc.) identified for integration and automation of manual revenue collection processes;
- All diplomatic Passports recalled and reissued where applicable;
- Reviewed and updated the Foreign Service Manual and the appointments of Foreign Service Inspector-Generals and Ambassadors to foreign missions are underway.

Photos of Service, Official, and Diplomatic Passports

2.10 SOCIAL DEVELOPMENT SERVICES

The Government of Liberia has committed to:

- The reactivation of the National Call Center to Support Gender-Based Violence (GBV);
- Revise the National Gender Policy (2018 - 2022) and the Strategic Action Plan (2021 - 2022);
- Organize an Institutional & Program Retreat for MGCSP;
- Conduct a Nationwide capacity needs assessment and reactivate the Program, Partnership and Resource Unit;

- **Organize the National County Meet**

The Government has made progress on the following:

- The procurement process has been initiated and funding is being processed for the reactivation of the National Call Center;
- Funding has been secured for the evaluation of the National Gender Policy amounting to US\$49,732.
- The National County Meet was organized. River Gee County won the football category, while River Cess County won the kickball category.

SECTION THREE: UPDATES ON THE GOVERNMENT OF LIBERIA 100-DAY ACTION PLAN SUPPORTED BY DEVELOPMENT PARTNERS

Development partners committed to:

- Support the development of a zero-post harvest loss strategy;
- Support to finalize the National Post Harvest Management Strategy;
- Provide 8 tricycles and 16 motorcycles to cooperatives in Nimba;
- Provide 25 rice mills to farmer cooperatives in Bong, Lofa and Nimba;
- Provide 60 power tillers for labor saving to farmers (especially women farmers);
- Provide support to At-Risk youth graduation;
- Provide technical support to assess rehab centers for the possible placement of drugs and substance abuse victims; Provide technical support for assessment of rape cases in the country;
- Rehabilitation of 73km of Farm-to-Market roads;
- Complete contracting for rehabilitation of 53 KM of feeder and farm-to market roads in Lofa county;
- Recruit gender expert to support the 100-Day Action Plan and the new National Development Plan process;
- Support availability and access to essential medicines, medical and nonmedical supplies through procurement and within county distribution (last mile distribution in 14 counties);
- Support the response to drugs and substance abuse through provision of medicines for detoxification, inpatient care and renovation of rehabilitation centers;
- Support the availability and access to safe blood for management of Postpartum Hemorrhage;
- Improve child survival and prevent deaths from VPDs through intensification of routine immunization activities and
- Support the introduction of the Malaria vaccine in Liberia;

The following interventions were achieved during the period:

- The National Post Harvest Strategy finalized;
- The UN's Technical support team to accompany the NDP process was launched, availing a diverse group of experts to support the NDP process; the Government of Sweden has committed to providing US\$400,000 through the UNDP to support the NDP and additional technical assistance from the UN is being mobilized, in response to the needs expressed by the NDP formulation and engagement roadmap
- Procured 8 tricycles and 16 motorcycles;
- Delivered Twenty-Five (25) rice mills with accessories to farmer cooperatives and rice processing hubs;
- Delivered 48 power tillers to farmers;
- Held the graduation ceremony of 127 rehabilitated former at-risk-youth;
- Awarded contracts for the rehabilitation of 73km of Farm-to-Market roads to provide access to market;
- Contracting is nearly completed for the rehabilitation of 53km of roads in Lofa;
- Gender expert consultancy finalized;
- Consignment of essential medicines donated to the Government and last mile distribution in the counties supported;
- One blood drive provided 296 units of safe blood distribution to major referral hospitals;
- Vaccinated 1,072,319 children under five and 112,000 doses of vaccines are available to benefit 28,000 children in six South Eastern counties;

SECTION FOUR: LESSONS LEARNT

The implementation of the 100-Day Action Plan hatched several policy concerns that future short-term plans should be heedful of, these include the following:

- Re-calling the budget resulted in the unavailability of resources needed for the implementation of major interventions considered within the 100-Day Action Plan.
- The counting of the 100-Day Action Plan started at a time the Government did not have a completed Cabinet, by the time a full Cabinet was in place, counting had already started and GoL was behind schedule on implementation.

SECTION FIVE: CONCLUSION

The Government of Liberia with support from national and international stakeholders has responded to most of the interventions spelled out in the 100-Day Action Plan amid several challenges including delayed passage of the FY2024 National Budget and confirmation of elected officials.

The report shows that, during the first 100 days, the Government initiated/completed 64 of the 87 interventions, constituting 74 percent success rate. The Government worked exceedingly hard to stabilize critical spots along major roads corridors making sure that the promise of accessibility of roads during the rainy season is actualized. Also, the fight against corruption featured highly during the period

under review. Furthermore, the drainage and sewage systems across Monrovia and Paynesville are being cleaned and restored. This has improved the sanitation in Monrovia and its environs. Additionally, the Government initiated payments of arrears for WASSCE and scholarships for Liberians students both at home and abroad. The 10,000 Youth Information & Communication Technology training program has also been launched and the recruitment process is ongoing. Finally, substantial progress has been made in the public administration sector in areas of fiscal policy and civil service reform.

ANNEXES

Annex 1: Funded 100-Day Interventions update

MACs	Interventions	Objectives	Cost	Status
Ministry of Education	Scholarships Arrears Payment (Local and Foreign students)	To pay the arrears of both local and international scholarship students	1,000,000	Ongoing The Government of Liberia has allotted US\$ 579,119.00 for the payment of arrears for both local and international scholarship students.
